INDEX OF SUBJECTS

A

Acid-fast bacilli. — The staining of . . . in paraffin sections (*Fite*) . 491

Adenoma. — Pars intermedia basophil . . . of the hypophysis (*Rasmussen and Nelson*) 297

Adenomas. — Uterine . . . in the rabbit (*Greene and Saxton*) . . 655*

Alcoholism. — Fatty infiltration of the liver and the development of cirrhosis in diabetes and chronic . . . (*Connor*) 347

Aluminum. — The experimental prevention of silicosis by metallic . . . (*Irwin*) 645*

Amboceptor. — An experimental study of complement and hemolytic . . . introduced into chick embryos (*Polk, Buddingh and Goodpasture*) 71

Angioreticuloendothelioma. — . . . (Kaposi's disease). A report of two consecutive cases originating in the heart (*Choisser and Ramsey*) 661*

Aorta. — Calcification of the . . ., heart and kidneys of the albino rat (*Hummel and Barnes*) 121

Arthritis. — Degenerative. . . . A comparison of the pathological changes in man and equines (*Callender and Kelser*) 253

Arthritis. — Degenerative. . . . A comparison of the pathological changes in man and equines (*Callender and Kelser*) 680*

Ascorbic acid. — The . . . content of dermal lesions induced by diphtheria toxin. Preliminary report (*Torrance*) 632*

Ascorbic acid deficiency. — The effect of . . . on enamel formation in the teeth of guinea pigs (*Boyle*) 843

B

Bladder. — Exstrophy of the . . . with imperforate anus, absence of the greater part of the small and large intestines, continuity of the duodenum with the colon, absence of the left testis, epididymis and cord, and enormous hydroureter (*McFarland*) 509

Blood plasma proteins. — . . . as influenced by liver injury induced by carbon tetrachloride and gum acacia (*Erickson, Heckel and Knutti*) 537

Bone. — Malignant giant cell tumor of . . . (*Stewart, Coley and Farrow*) 515

Bone. — Primary liposarcoma of. . . . Report of a case (*Duffy and Stewart*) 621

Brain. — Direct pathological evidence of circulatory disturbance in the. . . . Studies with the benzidine stain (*Alexander and Putnam*) 677*

* Abstract of paper presented at the meeting of the American Association of Pathologists and Bacteriologists held at Atlantic City, May 3 and 4, 1938.

Brain. — Tuberculous meningitis and its relation to tuberculous foci in the . . . (*Beres and Meltzer*) 59

Brain tumors. — Useful methods for the routine examination of . . . (*Foot*) 245

C

Calcification. — . . . of the aorta, heart and kidneys of the albino rat (*Hummel and Barnes*) 121

Carbon tetrachloride. — Blood plasma proteins as influenced by liver injury induced by . . . and gum acacia (*Erickson, Heckel and Knutti*) 537

Carcinoma. — Implantation . . . of the tubal mucosa secondary to . . . of the ovary (*Sampson*) 385

Carcinoma. — Pneumoconiosis and pulmonary . . . (*Vorwald and Karr*) 49

Carcinoma. — The action of colchicine and of ethylcarbylamine upon a mouse breast . . . in vitro (*Liebow and Tennant*) 676*

Cardiac hypertrophy. — Idiopathic . . . with cor pulmonale (*Enzer*) 667*

Cardiovascular disease. — Spontaneous . . . in the rat. I. Lesions of the heart (*Wilens and Sproul*) 177

Cardiovascular disease. — Spontaneous . . . in the rat. II. Lesions of the vascular system (*Wilens and Sproul*) 201

Carditis. — The induction of . . . by the combined effects of hyperthyroidism and infection (*Schultz*) 651*

Castration cells. — Differences between . . . and thyroidectomy cells of the pituitary of the rat in response to the administration of estrone and thyroid extract (*Zeckwer*) 773

Castration cells. — Further evidence that " . . . " and "thyroidectomy cells" are different types of pituitary cells (*Zeckwer*) . . . 650*

Cells of Schwann. — The rôle of the . . . in the formation of tumors of the peripheral nerves (*Bailey and Herrmann*) 1

Chemotropism. — . . . induced by Streptococcus haemolyticus in leukocytes from normal and immune animals (*Coman, McCutcheon and DeCamp*) 631*

Chick embryos. — An experimental study of complement and hemolytic amboceptor introduced into . . . (*Polk, Buddingh and Goodpasture*) 71

Chloroleukemia. — Transmission of . . . of mice (*Hall and Knocke*) 217

Circulatory disturbance. — Direct pathological evidence of . . . in the brain. Studies with the benzidine stain (*Alexander and Putnam*) 677*

Cirrhosis. — Fatty infiltration and . . . of the liver in depancreatized dogs maintained with insulin (*Chaikoff, Connor and Biskind*) . 101

Cirrhosis. — Fatty infiltration of the liver and the development of . . . in diabetes and chronic alcoholism (*Connor*) 347

Colchicine. — The action of . . . and of ethylcarbylamine upon a mouse breast carcinoma in vitro (*Liebow and Tennant*) . . . 676*

Complement. — An experimental study of . . . and hemolytic amboceptor introduced into chick embryos (*Polk, Buddingh and Goodpasture*) 71

Cornea. — Vascularization of the . . . of the rat in riboflavin deficiency (*Bessey and Wolbach*) 648*

Cow. — Primary reticulum cell sarcoma of the lymph nodes of a . . . with widespread metastases (*Bengston*) 365

D

Diabetes. — Fatty infiltration of the liver and the development of cirrhosis in . . . and chronic alcoholism (*Connor*) 347

Diphtheria toxin. — The ascorbic acid content of dermal lesions induced by. . . . Preliminary report (*Torrance*) 632*

E

Eastern equine encephalomyelitis. — The pathology of . . . in the guinea pig (*King*) 636*

Enamel formation. — The effect of ascorbic acid deficiency on . . . in the teeth of guinea pigs (*Boyle*) 843

Erythroblastosis. — Pathological changes in the placenta associated with . . . of the fetus (*Hellman and Hertig*) 111

Estrone. — Differences between castration cells and thyroidectomy cells of the pituitary of the rat in response to the administration of . . . and thyroid extract (*Zeckwer*) 773

Ethylcarbylamine. — The action of colchicine and of . . . upon a mouse breast carcinoma in vitro (*Liebow and Tennant*) . . . 676*

Experimental poliomyelitis. — The distribution of material following intracerebral inoculation into Macacus rhesus monkeys and its possible influence upon the results of neutralization tests in . . . (*Schaeffer and Muckenfuss*) 227

Exstrophy. — . . . of the bladder with imperforate anus, absence of the greater part of the small and large intestines, continuity of the duodenum with the colon, absence of the left testis, epididymis and cord, and enormous hydroureter (*McFarland*) 509

Extraparenchymal interstitial cells. — Giant interstitial cells and . . . of the human testis (*Nelson*) 831

F

Fatty infiltration. — . . . and cirrhosis of the liver in depancreatized dogs maintained with insulin (*Chaikoff, Connor and Biskind*) . . 101

Fatty infiltration. — . . . of the liver and the development of cirrhosis in diabetes and chronic alcoholism (*Connor*) 347

Fleckmilz. — Multiple necroses of the spleen (. . .) (*Schmeisser and Harris*) 821

Fluorides. — Osseous changes in man following the prolonged ingestion of . . . (*Bauer*) 682*

Foramen ovale. — Developmental defects at the . . . (*Patten*) . . 135

G

Ganglia. — Histological variations in autonomic . . . and ganglion cells associated with age and disease (*Kuntz*) 783

Ganglion cells. — Histological variations in autonomic ganglia and . . . associated with age and disease (*Kuntz*) 783

Ganglioneuroblastoma. — Multiple tumors of the sympathetic nervous system. Report of a case showing a distinct ganglioneuroma, a neuroblastoma and a cystic calcifying . . . (*Wahl and Craig*) . 797

Ganglioneuroma. — Multiple tumors of the sympathetic nervous system. Report of a case showing a distinct . . ., a neuroblastoma and a cystic calcifying ganglioneuroblastoma (*Wahl and Craig*) 797

Giant cell tumor. — Malignant . . . of bone (*Stewart, Coley and Farrow*) 515

Giant interstitial cells. — . . . and extraparenchymal interstitial cells of the human testis (*Nelson*) 831

Glomerulonephritis. — A clinical and pathological study of subacute and chronic . . ., including lipoid nephrosis (*Bell*) 691

Granuloma venereum. — The pathology of . . . (*D'Aunoy and von Haam*) 39

Gum acacia. — Blood plasma proteins as influenced by liver injury induced by carbon tetrachloride and . . . (*Erickson, Heckel and Knutti*) 537

H

Heart. — Angioreticuloendothelioma (Kaposi's disease). A report of two consecutive cases originating in the . . . (*Choisser and Ramsey*) 661*

Heart. — Calcification of the aorta, . . . and kidneys of the albino rat (*Hummel and Barnes*) 121

Heart. — Spontaneous cardiovascular disease in the rat. I. Lesions of the . . . (*Wilens and Sproul*) 177

Hemophilus pertussis. — Experimental infection in the mouse produced by intratracheal inoculation with . . . (*Bradford*) . . 377

Hormones. — A histological study of the effect of the sex . . . on the human prostate (*Moore and McLellan*) 651*

Hyperthyroidism. — The induction of carditis by the combined effects of . . . and infection (*Schultz*) 651*

Hypophysis. — Pars intermedia basophil adenoma of the . . . (*Rasmussen and Nelson*) 297

I

Implantation carcinoma. — . . . of the tubal mucosa secondary to carcinoma of the ovary (*Sampson*) 385

Inclusion blennorrhea. — Studies on the infectious agent of . . . (*Julianelle, Harrison and Lange*) 579

Inclusion body. — The matrix of the epithelial cell . . . of trachoma (*Thygeson*) 455

Infection. — The induction of carditis by the combined effects of hyperthyroidism and . . . (*Schultz*) 651*

Influenza. — Propagation of the virus of human . . . in the guinea pig fetus (*Woolpert, Gallagher, Davis and Hudson*) 636*

Insulin. — Fatty infiltration and cirrhosis of the liver in depancreatized dogs maintained with . . . (*Chaikoff, Connor and Biskind*) . 101

Intestine. — Unusual neoplasms of the small . . . (*Goldberg*) . . 663*

J

Jaundice. — The prevalence of infectious . . . in the United States as determined by agglutination and animal inoculation tests (*Packchanian*) 638*

K

Kaposi's disease. — Angioreticuloendothelioma (. . .). A report of two consecutive cases originating in the heart (*Choisser and Ramsey*) 661*

Kidneys. — Calcification of the aorta, heart and . . . of the albino rat (*Hummel and Barnes*) 121

L

Leprosy. — The behavior of murine and human . . . in foreign hosts (*Sellards and Pinkerton*) 421

Leprosy. — The tuberculin reaction and its significance in . . . (*McKinley*) 646*

Leukemic conditions. — A classification of . . . and allied . . . (*Moon*) 668*

Leukocytes. — Chemotropism induced by Streptococcus haemolyticus in . . . from normal and immune animals (*Coman, McCutcheon and DeCamp*) 631*

Leukocytes. — The phagocytic activity of human . . . with special reference to their type and maturity (*Hertzog*) 595

Lipoid nephrosis. — A clinical and pathological study of subacute and chronic glomerulonephritis, including . . . (*Bell*) 691

Liposarcoma. — Primary . . . of bone. Report of a case (*Duffy and Stewart*) 621

Liver. — Fatty infiltration and cirrhosis of the . . . in depancreatized dogs maintained with insulin (*Chaikoff, Connor and Biskind*) . 101

Liver. — Fatty infiltration of the . . . and the development of cirrhosis in diabetes and chronic alcoholism (*Connor*) 347

Lungs. — The effect of circulating toxins on the . . . (*Sprunt and Camalier*) 645*

Lymph. — The ability of . . . to maintain viability in "devascularized" . . . nodes (*Holman and Self*) 463

Lymph node metastasis. — . . . of sarcoma (*Warren and Meyer*) . 605

Lymph node metastasis. — . . . of sarcoma (excluding lymphosarcoma) (*Warren*) 661*

Lymph nodes. — Primary reticulum cell sarcoma of the . . . of a cow with widespread metastases (*Bengston*) 365
Lymph nodes. — The ability of lymph to maintain viability in "devascularized" . . . (*Holman and Self*) 463

M

Malignant tumors. — Multiple primary . . . (*Austin*) 664*
Mammary carcinoma. — Clinical and genetic observations on spontaneous . . . of the rabbit (*Pearce and Greene*) 655*
Mammary gland. — A comparative morphological study of the . . . in a high and a low tumor strain of mice (*Fekete*) 557
Masson trichrome technique. — A modification of the . . . for routine laboratory purposes (*Goldner*) 237
Meningitis. — Tuberculous . . . and its relation to tuberculous foci in the brain (*Beres and Meltzer*) 59
Murine leprosy. — Histological and cytological studies of . . . (*Pinkerton and Sellards*) 435

N

Necroses. — Multiple . . . of the spleen (Fleckmilz) (*Schmeisser and Harris*) 821
Neoplasms. — Unusual . . . of the small intestine (*Goldberg*) . . 663*
Neoplastic disease. — . . . of the pancreas in reptiles (*Ratcliffe*) . . 660*
Nephritis. — Acute hematogenous interstitial . . . (*Kimmelstiel*) . 737
Nephritis. — Acute hematogenous interstitial . . . (*Kimmelstiel*) . 686*
Nephritis. — The renal lesion in cytotoxic glomerular . . . (in rabbits) (*Ehrich*) 684*
Nesidioblastoma. — . . ., the islet tumor of the pancreas (*Laidlaw*) . 125
Neuroblastoma. — Multiple tumors of the sympathetic nervous system. Report of a case showing a distinct ganglioneuroma, a . . . and a cystic calcifying ganglioneuroblastoma (*Wahl and Craig*) 797
Neutralization tests. — The distribution of material following intracerebral inoculation into Macacus rhesus monkeys and its possible influence upon the results of . . . in experimental poliomyelitis (*Schaeffer and Muckenfuss*) 227

O

Oral papillomatosis. — . . . of domestic rabbits: A virus-induced disease (*Parsons and Kidd*) 634*
Ovary. — Implantation carcinoma of the tubal mucosa secondary to carcinoma of the . . . (*Sampson*) 385

P

Pancreas. — Neoplastic disease of the . . . in reptiles (*Ratcliffe*) . 660*
Pancreas. — Nesidioblastoma, the islet tumor of the . . . (*Laidlaw*) . 125
Parathyroid glands. — The cytology of the human . . . (*Norris*) . 649*

Peripheral nerves. — The rôle of the cells of Schwann in the formation of tumors of the . . . (*Bailey and Herrmann*) 1

Pharyngeal pituitary gland. — The . . . (*Melchionna and Moore*) . 763

Pituitary. — Differences between castration cells and thyroidectomy cells of the . . . of the rat in response to the administration of estrone and thyroid extract (*Zeckwer*) 773

Pituitary cells. — Further evidence that "castration cells" and "thyroidectomy cells" are different types of . . . (*Zeckwer*) . . 650*

Placenta. — Pathological changes in the . . . associated with erythroblastosis of the fetus (*Hellman and Hertig*) 111

Pneumococci. — The failure of allergic inflammation to protect rabbits against infection with virulent . . . (*Cannon and Hartley*) . . 87

Pneumoconiosis. — . . . and pulmonary carcinoma (*Vorwald and Karr*) 49

Prostate. — A histological study of the effect of the sex hormones on the human . . . (*Moore and McLellan*) 651*

R

Reptiles. — Neoplastic disease of the pancreas in . . . (*Ratcliffe*) . 660*

Reticulum cell sarcoma. — Primary . . . of the lymph nodes of a cow with widespread metastases (*Bengston*) 365

Riboflavin deficiency. — Vascularization of the cornea of the rat in . . . (*Bessey and Wolbach*) 648*

Rickets. — Studies on experimental . . . in rats. II. The healing process in the head of the tibia and other bones (*Dodds and Cameron*) 273

S

Sarcoma. — Lymph node metastasis of . . . (*Warren and Meyer*) . 605

Sarcoma. — Lymph node metastasis of . . . (excluding lymphosarcoma) (*Warren*) 661*

Scarlet fever streptococcus toxin. — Serological studies of children before and after vaccination with the . . . (*Strumia*) 632*

Scurvy. — The bone and cartilage lesions of protracted moderate . . . (*Ham and Elliott*) 323

Silicosis. — The experimental prevention of . . . by metallic aluminum (*Irwin*) 645*

Spectrums. — Bacterial growth ". . .". II. Their significance in pathology and bacteriology (*Williams*) 642*

Spleen. — Multiple necroses of the . . . (Fleckmilz) (*Schmeisser and Harris*) **821**

Spleen. — The effect of age, color and sex on the weight of the human . . . (*Krumbhaar and Lippincott*) 670*

Splenic lymphatic tissue. — The amount of . . . at different ages (*Hwang, Lippincott and Krumbhaar*) 809

Streptococcus haemolyticus. — Chemotropism induced by . . . in leukocytes from normal and immune animals (*Coman, McCutcheon and DeCamp*) 631*

Submaxillary gland virus. — A study of the . . . of the guinea pig (*Markham*) 311

Sulfanilamide. — Pathological effects of elixir of . . . poisoning (*Cannon and Geiling*) 653*

Sympathetic nervous system. — Multiple tumors of the. . . . Report of a case showing a distinct ganglioneuroma, a neuroblastoma and a cystic calcifying ganglioneuroblastoma (*Wahl and Craig*) . . 797

Syphilis. — The effect of . . . on local tuberculous lesions in rabbits (*Aronson and Meranze*) 163

T

Tarring. — A comparison of the virus-induced rabbit tumors with the tumors of unknown cause elicited by . . . (*Rous and Kidd*) . 658*

Teeth. — The effect of ascorbic acid deficiency on enamel formation in the . . . of guinea pigs (*Boyle*) 843

Temporal bone. — Inflammation of the petrous pyramid of the . . . (*Eggston*) 680*

Testis. — Giant interstitial cells and extraparenchymal interstitial cells of the human . . . (*Nelson*) 831

Thyroidectomy cells. — Differences between castration cells and . . . of the pituitary of the rat in response to the administration of estrone and thyroid extract (*Zeckwer*) 773

Thyroidectomy cells. — Further evidence that "castration cells" and ". . ." are different types of pituitary cells (*Zeckwer*) . . . 650*

Thyroid extract. — Differences between castration cells and thyroidectomy cells of the pituitary of the rat in response to the administration of estrone and . . . (*Zeckwer*) 773

Tibia. — Studies on experimental rickets in rats. II. The healing process in the head of the . . . and other bones (*Dodds and Cameron*) 273

Toxins. — The effect of circulating . . . on the lungs (*Sprunt and Camalier*) 645*

Trachoma. — The matrix of the epithelial cell inclusion body of . . . (*Thygeson*) 455

Tubal mucosa. — Implantation carcinoma of the . . . secondary to carcinoma of the ovary (*Sampson*) 385

Tuberculin reaction. — The . . . and its significance in leprosy (*McKinley*) 646*

Tuberculosis. — The effect of the primary pulmonary focus upon the progress of experimental pulmonary . . . (*Clawson*) . . . 674*

Tuberculosis. — The residual infectivity of the primary complex of . . . (*Feldman and Baggenstoss*) 473

Tuberculosis. — The residual infectivity of the primary complex of . . . (*Feldman and Baggenstoss*) 672*

Tuberculosis. — The rôle and nature of inherited natural resistance to . . . (*Lurie*) 646*

Tuberculosis. — . . . in allergic and desensitized guinea pigs. A study of histological changes (*Willis and Woodruff*) 337

Tuberculosis. — Variations of pulmonary lesions in primary and post-primary human . . . (*Terplan*) 675*

Tuberculous lesions. — The effect of syphilis on local . . . in rabbits (*Aronson and Meranze*) 163

Tumor cells. — Morphological variations of . . . (*Saphir*) 443

V

Vascularization. — . . . of the cornea of the rat in riboflavin deficiency (*Bessey and Wolbach*) 648*

Vascular system. — Spontaneous cardiovascular disease in the rat. II. Lesions of the . . . (*Wilens and Sproul*) 201

Vibrion septique. — The cardiorenal toxic properties of the toxin of . . . in animals (*Pasternack*) 683*

Virus. — Propagation of the . . . of human influenza in the guinea pig fetus (*Woolpert, Gallagher, Davis and Hudson*) 636*

Virus-induced rabbit tumors. — A comparison of the . . . with the tumors of unknown cause elicited by tarring (*Rous and Kidd*) . 658*

Virus infection. — Multiple . . . of individual host cells (*Syverton and Berry*) 633*
